

Recommendation Letter

Bucharest, 14th of July 2016

We had the opportunity to collaborate several times in our projects with Workspace Studio SRL - for various concept design scenarios, interior office space redecoration and turn-key refurbishment projects.

During our partnership, Workspace Studio fulfilled all our expectations in terms of quality and product solutions and continuously worked to provide the best customer experience.

The architects and project responsible payed attention to the finest details and offered their support at all stages of project implementation.

Besides the final result, their high level of professionalism, flexibility and friendly approach determined us to recommend them to other businesses with no hesitation, especially to those seeking products and solutions adjusted to their individual needs and requirements.

Yours Sincerely,

Mihai Sandu

Office Manager
