

Recommendation Letter

To Whom It Might concern

Bucharest, 20th of February 2019

We had the opportunity to collaborate several times in our projects with Workspace Studio SRL – starting with our headquarter turn-key refurbishment project in 2017 and later for various concept design scenarios and interior office space redecoration.

During our partnership, Workspace Studio fulfilled all our expectations in terms of quality and product solutions and continuously worked to provide the best customer experience.

The architects and project managers payed attention to the finest details and offered their support at all stages of project implementation.

Besides the final result, their high level of professionalism, flexibility and friendly approach determined us to recommend them to other businesses with no hesitation, especially to those seeking products and solutions adjusted to their individual needs and requirements - performed at the higher standards.

Yours Sincerely,

Dana Sintejudean
General Manager Romania & Moldova
