## Recommendation Letter

To whom it may concern:

We had the opportunity to collaborate with Workspace Studio, in our search for suitable furnishing solutions for our office space in Cluj, Romania.

During our on-going collaboration, Workspace Studio has managed to exceed our expectations in terms of details, high quality service, products, budget and deadlines, by providing us with the best ergonomic solutions we could ever hope to find for our employees.

Not only did Workspace Studio provide excellent ergonomic furniture - task chairs and height adjustable desks - but with their philosophy of how a modern office should be utilized – a sit-stand routine that replaced our normal 8 hour sitting routine – it has also improved the well-being of our employees.

Furthermore, by choosing to purchase height-adjustable desks and chairs from Workspace Studio we have also enabled each individual user to have a greater contribution in the customization of their own work-space. The overall effect was a positive one and has offered our employees the opportunity to actively engage in the design process of our workspace.

Sincerely,

Adrian Rotaru  
Director of Engineering
