

LETTER OF RECOMMENDATION

To whom it may concern,

We had the opportunity to collaborate with Workspace Studio since 2015 for various types of projects consisting on design, permitting, fit out construction on our premises and complete furnishing for our tenants. Even from the start they have been able to meet and exceed our particular needs and requirements in term of details, high quality of services and products, budget and deadlines.

Of these projects we would like to mention the redesign and producing all the documentation for ISU authorization of the entire building (15.000 sqm), the public areas redesign, including authorization, turn-key works and reception with the authorities, the concept design and execution for all lounges and particular tenants – with cumulate surfaces exceeding 10.000 sqm.

We were always able to rely on theirs teams at all levels and for their entire portfolio of services: architectural, permitting, project and cost management, construction works, flooring, furniture and other architectural products.

We highly appreciate Workspace Studio and we recommend them as a strong and reliable partner for integrated solutions and services for office interiors.

Yours sincerely,

Christian Derveloy
President
