LETTER OF RECOMMENDATION

To: Whom It May Concern

We hired Workspace Studio to undertake the complete furnishing our new headquarter in Bucharest at the end of 2020. They were responsible for both standard and custom-made furniture, as well as a number of acoustic solutions.

In spite of the challenges induced by the coronavirus pandemic, we found Workspace Studio to be dedicated to its customers and committed to quality in delivered products. Workspace Studio met our expectations by providing support during the implementation of the project.

The high-level quality and ergonomics of Herman Miller products are evident. Our office space was transformed into an inspiring working environment and we appreciated their flexibility demonstrated in ensuring our requirements were achieved.

We recommend Workspace Studio to companies looking for ergonomic and performant integrated solutions for office interiors.

Sincerely yours,

Leszek Wacierz
General Manager
Nestlé Romania
