LETTER OF RECOMMENDATION

To Whom It May Concern

February 2016

Bucharest

In 2014 when we decided to move into new premises in SkyTower building, we needed a reliable partner – one that would take proper care of all significant details, while providing professional services and solutions to all problems that might arise during the relocation process.

Workspace Studio was appointed to provide design services and to supply office furniture and custom made items. Their team was able to assess our needs and requirements and offered customized solutions that managed to fulfil our expectations.

We were glad to work with Workspace Studio, knowing that they share the same open and fresh approach on business, as well as a high sense of commitment to quality in everything they deliver.

These are some of the reasons for which we would like to recommend Workspace Studio for a professionally managed project.

Sorin Bonciu

CEO
