

## LETTER OF RECOMMENDATION

*To Whom It May Concern*

*February 2015, Bucharest*

This is to confirm the excellent business relationship we established with Workspace Studio since we decided to move to our new office premises.

Our project was composed of various services and products such as interior design consultancy, interior partitions, custom made furniture, carpet, window blinds and other services.

Workspace Studio combined both high quality products & services and sustainable cost during all project development and implementation phases.

The added value that Workspace Studio brought to our project was also the fast, innovative and dedicated approach of their team.

Therefore, we greatly appreciate Workspace Studio for their capabilities and commitment and confidently recommend them as a highly capable business partner for corporate office turnkey projects.

Catalin Profir

General Manager
